

Reflection Week 14

Name: Aaron Tumbokon

Total Points: 100

20 pts Questions **Cognitive: (Wow, I learn?... Ok that is deep!)**

- Why is this week's topic important for teamwork?

I think that the importance of synergism determines how effective a team will be. A team with synergism, finishes the job faster and much better because everyone is working, and that work produces a combined effect greater than the sum of their separate effects.

- How do plan on contributing to the team, besides completing your tasks?

I plan on contributing to the team by seeking the synergism within the team. When we all are working together in unity, we will be able to finish the job more effectively.

- How does your experience relate to other experiences you have had?

I think that learning about synergism made me more aware of its benefits against working alone or working separately in a team. The Book 'The 7 Habits of Highly Effective People' also helped me to know about synergism.

- Tell me about what you taught someone? And what did they learn, that they didn't know before?

I taught my brother synergism and he is glad to know the benefits of synergism in a team. He told me that he didn't know it before, he also said that synergism might not come immediately, but when the synergism in a team is built, it will be a fun experience.

- If this was a religion class, how would you relate this week's topic to the gospel?

I think synergism in the gospel is like unity. When we are united, (one heart, and one mind) we will prosper.

Total point justification: I answered 5, 20 point questions that totals up to 100 points, and it's almost Christmas.
